

METCloud
GET CONNECTED, CYBER SAFE

SOC AS-A-SERVICE

WHAT IS SOCaaS?

Security Operation Center as a Service (SOCaaS) will be your most important security investment. All businesses will gain essential insight into malicious cyber activity within their networks and systems. Pro-active cyber surveillance 24/7 will enable you to quickly identify emerging risks and ensure you are optimizing your capability to defend against cyber attacks.

POWERED BY
CYBERSHARK™

- ✓ 24x7x365 monitoring of customer networks by experienced security analysts
- ✓ Efficient collection of logs using a single collector file
- ✓ Encrypted transmission of logs to the cloud service
- ✓ Logs are hashed and stored for 12 months for compliance
- ✓ Real time threat analysis and incident notification
- ✓ Elimination of false positives with notification of positive threats only
- ✓ Customised portal to view processed data, reports and incident cases
- ✓ Scheduled reporting, management operational and compliance
